JAIMIE BOWEN

Lakewood, Ohio — jaimie6453@gmail.com — (440) 623-7124 — https://jaimie453.github.io

Front-end developer with a focus on usability and accessibility.

EXPERIENCE

FRONT-END DEVELOPER

BAM Technologies (Nov 2021 – Present)

Promoted to focus on the company's design system and assist in front-end development on other teams.

- Develop UI components to increase developer productivity and refine company branding.
- Optimize end-user applications to be more performant, responsive, and accessible.
- Document front-end best practices to improve code quality and consistency.
- Perform accessibility testing and reviews to ensure section 508 compliance per contract requirements.

SOFTWARE DEVELOPER

BAM Technologies (May 2021 – Nov 2021)

Performed full-stack development for the Airforce's MyVector platform.

- Successfully planned, developed, and released Relocations application from Sprint 0.
- Modified application features to improve usability according to client feedback.

STUDENT DEVELOPER

Kent State University (June 2020 – May 2021)

Worked part-time building web applications for multiple KSU departments using .NET, Angular, and MSSQL.

- Developed call center application to improve the productivity of the Financial Aid department.
- Enhanced user experience for university dorm residents.
